

Recommended Control Box Positioning
 Site the control box preferably to an upright surface, in an accessible service void, adjacent to or below the display unit (minimum clearance below underside of display unit = 200mm).

Incorrect Control Box Positioning
 The control box must not be located
 1) directly to the underside of the display unit,
 2) above a hot cupboard or,
 3) where ambient temperature is above 40°C,
 4) where likely to allow ingress of water i.e. wet floor areas.
