- ✓ Supplied in cardboard packaging – shipping weight 3Kg.

Model MSPDW Shown.

Manual Sanitiser Point: Table Top Or Wall Mounted (Alcohol Gel).

The CED alcohol gel sanitising point has a twin set of manual dispensers, providing a combined 1 litre capacity and are specially designed to help maintain a hygienic environment in high traffic volume areas. These sanitiser points allow you to combine safety and practicality at low cost and are ideally suited to reception points, entrance areas, wash areas, servery counter pay points or cutlery collection areas.

Easy To Use.

Public Health England advise that using a sanitising gel that has an alcohol content of 60% and above, is effective at killing corona virus. Each 500 ml dispenser uses alcohol gel $\geq 60\%$. Just apply light pressure with the forearm to dispense 1-2ml of the sanitising gel.

Easy To Refill.

(Table Top). When the table top dispenser has been screw fixed down to a worktop (for stability when using/ theft prevention), the daily alcohol gel re-fill is done by removing the top portion of the tap (which has the suction pipe attached also).The bottles underneath can be accessed for periodic deep clean by removing the screws to rear.

(Wall Mounted). The bottom of the wall mounted sanitiser point is open under, so depending on the fixing height used, daily gel re-fill can be done by removing the top portion of the tap or by unscrewing the bottles from underneath.

Table Top Mounted

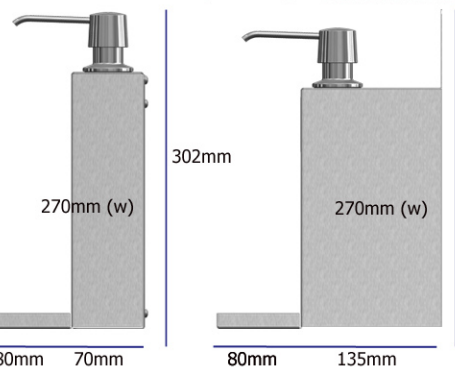

Wall Mounted

(MSPDW) MANUAL SANITISER POINT: WALL MOUNTED (Alcohol Gel)

Code	Description	Model Size (mm)	Capacity (Litres)
MSPDW	Sanitiser Point Wall Mounted: (Alcohol Gel)	305(h) x 270 (w) x 135 (+80) (d)	1

Hygienic & Durable. These heavy duty sanitiser points are manufactured from hygienic, easily cleaned 430 gd. s/steel and can be placed in high traffic locations, to encourage PPB (personal protective behaviour). The spring loaded dispenser has been tested for a lifetime delivery of 50,000 doses too !

Practical. You can easily install or relocate the sanitising points in many locations as there is no electrical connection.

Compact & Space Saving. With their minimal footprint, CED's sanitiser points can be strategically placed in multiple locations where hygiene needs to be maintained..at the entrance to your establishment, reception desks, offices, changing rooms, kitchen areas etc.

Suitable For Adults & Children. The sanitiser point is ideal for schools and colleges. Site them in dining halls, classrooms or wherever children congregate to help promote the importance of hygiene in collective environments.
