To whom it may concern

This is to confirm that Prof. S. A. Tassou of Brunel University has carried out performance tests on the MDR4-4-1 multideck rear door display cabinet manufactured by CED Fabrications Ltd. The cabinet tested, was able to maintain product temperature below 8°C at all positions even during the defrost cycle. The tests were carried out in the environmental chamber at ambient conditions of 27°C & 55% RH and a side flow across the face of the cabinet of 0.2 m/s.
